

Staying Current with Best Practices in Flexible Endoscopy

Personnel responsible for any aspect of reprocessing flexible endoscopes must be knowledgeable in order to minimize the risk of infection transmission and to ensure quality patient care. Critical decisions are based on standards and recommended practices. The topics included in this seminar will focus on the information necessary to make informed decisions and to ensure a standard of practice in this critical field of healthcare delivery.

Who Should Attend:

Personnel employed in any aspect of flexible endoscopy:

- CT SGNA Members and Associates
- Endoscopy, sterile processing technicians, supervisors and management staff
- Operating room personnel
- Surgical technologists
- Infection Prevention staff
- Risk Management staff

Seminar Agenda

ANSI/AAMI 58: Chemical Sterilization and High Level Disinfection in Healthcare Facilities (2 hours)

The Challenges of Endoscope Cleaning

Microbes in the Endoscopy Environment: What You Need to Know

Surviving an Infection Prevention Survey

All topics approved by ABCGN

Continuing Education contact hours and certificates of attendance can only be awarded upon completion of the entire program.

International Association of Healthcare Central Service Materials Management – 5 contact hours.

The Certification Board for Sterile Processing and Distribution - 5.0 contact hours.

STERIS Corporation is an approved provider of continuing nursing education by the California Board of Registered Nursing, provider number CEP 11681 for 5.0 contact hours.

All topics approved through ABCGN.
